

Psychology 11

Chapter 07: States of Consciousness

Dream Theories Assignment

There are **five theories** for understanding “why we dream” (pp 287-289):

1. Freud’s wish-fulfillment
2. Information-processing
3. Physiological function
4. Activation-synthesis
5. Cognitive theory

Choose **one** of these strategies for this assignment.

In two or three paragraphs **explain** the theory and provide examples to support the view. **Introduce** the particular view, provide a **definition**, include **examples**, and conclude with a summary.

Also, include a chart, graph or other visual.

Use the headings listed in the criteria for each section of your assignment, or bold the word (headings) in the paragraphs.

Use three sources for your information, one source will be your textbook, **Psychology**, Chapter 07. Include a reference page.
